Space Efficient, Solid Steel Construction

The footprint of the TRUE Stretch® is 57"D x 48"W (145 cm x 122cm) which protects your valuable floor space and adds considerable value to any exercise routine. Like all TRUE® equipment, it's built to endure the rigors of daily heavy usage. Constructed from tubular steel for strength, the TRUE Stretch® is protected by a charcoal powder coat finish and covered by a one (1) year parts warranty.

PLACARDS - Easy-To-Follow Stretching Regimen

Choose between a **STANDARD** or **GOLF** placard that is displayed on the frame. This full color illustrated display is organized by muscle groups and features 30 different stretching exercises. All are designed to mimic real-life, real world stretches. TRUE Stretch® effectively stretches the body in all three planes of motion (front to back, side to side, and rotational) while keeping the user in natural upright positions with four points of contact (both hands and both feet) for proper body alignment, stability and safety. Available in Standard or GOLF Stretch.

STANDARD

GOLF

GOLF PLACARD is the preferred choice among golf professionals and features a solid, scientific design that helps golfers increase flexibility and minimize injury through simple and safe stretching exercises. TRUEStretch® is featured in 40% of the Top 100 golf courses in the United States.
